ABOUT ME

I'm an enthusiastic developer with a strong interest in both Frontend and Backend development, always excited to build clean, user-friendly, and impactful digital experiences. I have a creative mindset and love thinking outside the box to bring fresh ideas into my work. Outside of coding, I enjoy reading books, cooking and baking, and listening to music, which keep me inspired and balanced. With a curious nature and a drive to learn, I'm always looking for new opportunities to grow and contribute meaningfully.

EDUCATION

(2019 – 2020)

10TH (SSC)
result 70%

(2021 – 2022)

12TH (HSC)
result 60%

(2022 – 2026)

COLLEGE (APOLLO UNIVERSITY)
CGPA 7.0

SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux
- Backend: Python, Django
- Database: SQLite & MySQL
- Styling Frameworks: Bootstrap, Tailwind CSS
- Tools: Git, GitHub
- Other: Windows OS, API Integration

Gujarati

WORK EXPERIENCE

AI AND ML INTERNSHIP

2025–JULY

I completed an online AI and ML internship through IBM SkillBuild, gaining strong foundational knowledge in modern machine-learning concepts and tools. This experience enhanced my problem-solving skills and strengthened my interest in intelligent system development.

- Prompt Engineering
- AI and ML Basics
- AI Agents

TRAINING AT TOPS TECHNOLOGIES

2025

I completed around 8–10 months of training at TOPS Technologies, where I gained practical experience in full-stack development and industry-level workflows. This training strengthened my technical skills and prepared me for real-world projects and team collaboration.

- Frontend Creation
- Backend Building
- Soft Skills Improvement

KEY COMPETENCIES

- Responsive Web Design
- Single Page Applications
- Component-Based Architecture
- State Management (Redux)
- UI/UX Design Principles
- Server-Side Logic (Django/Python)

- Backend Architecture
- RESTful API Development
- Database Management
- Authentication & Authorization
- Debugging and Problem Solving

PROJECTS

- React CRUD Application**
Developed a dynamic website using React with full CRUD implementation, powered by a static JSON database (db.json). Focused on responsive UI, reusable components, and clean state management.
- Django Authentication System**
Implemented a secure login and signup system using Django, Python, and SQL. Integrated sessions, user models, password hashing, and a responsive interface for smooth user experience.
